

Radon Tee: World Trek 2010

New Jersey will be hosting Radon Tee from July 27, 2010 through August 7, 2010!

Radon Tee is a social awareness project sponsored by Cancer Survivors Against Radon (CanSAR), a non-profit organization providing a voice to stop the nation's second leading cause of lung cancer.

Radon Tee is a special t-shirt designed for CanSAR by a group of eighth grade students from Illinois. The goal of Radon Tee is to increase testing and mitigation in our communities through the power of photos, videos and personal stories. As Radon Tee treks around the world, social content will be posted to its Facebook and Twitter accounts, where fans can see others who support radon awareness and learn about the importance of testing their own homes for radon. Radon awareness materials will be made available for all Radon Tee events and t-shirts can be purchased through CanSAR for distribution.

Please let us know if your community/ business would like to become part of our team by planning an event or bringing Radon Tee to an historic site or event in your community.

Additional information can be found on www.CanSAR.org. Please contact Linda Z. Jordan at (609) 984-5434 if you are interested in participating.
